

Project 11

Course Code and Name: MSJ3242 Created Private Media

Project Name: Production Binder for JAAGO Foundation – Breaking the Cycle: A Journey Out of Poverty

Project Type: Corporate Audio Visual

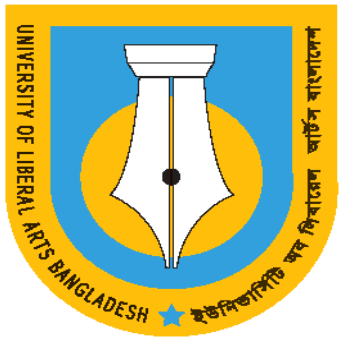

Semester of Submission: Fall 2024

Project Description:

As the final project for MSJ3242: Created Private Media, our group (Prism PR Solutions) produced a full production binder for a corporate AV titled “Breaking the Cycle: A Journey out of Poverty,” made for the JAAGO Foundation. The binder includes the script, script breakdown, two-day shooting schedule, shot list, reference shots, location list, prop list, crew list, and cast list for a 4-minute-30-second film following a child's school day at a JAAGO Foundation school.

Project Justification:

This project was undertaken to give our group real production-house experience, from scripting and scheduling to on-location shooting for a non-profit client. As Director of Photography for the shoot, and as the writer of the Brief Information and Crew List sections of the binder, I applied cinematography and shot-composition skills to represent JAAGO Foundation's mission authentically and persuasively.

Learnings and Outcomes (Self-reflection):

- I learned how to translate a story into visuals. As the DOP, I learned how to use different shot types, framing, and camera perspectives to visually communicate the story of Shakil, his family, and his journey toward education.
- I developed practical shot-planning skills. Creating the short list and deciding between long shots, medium shots, and close-ups helped me understand how each shot serves a specific storytelling purpose, from establishing the environment to capturing emotional details.
- I learned the importance of visual continuity.
